LUXE ELEVATORS

R E D E F I N I N G L U X U R Y

Luxe Elevators® is a modern luxury elevator company, the only one born and certified in Luxembourg, providing service throughout the world.

We specialize in creating exclusive and different elevators so that they become another element of their owners' lifestyle.

we're different

because we are
innovative

*“Creativity is thinking of new ideas.
To innovate is to do new things.”*

Theodore Levitt

to surprise

is our motto

At Luxe Elevators® we are pleased to design elevators that do not go unnoticed. We differentiate ourselves by making the ideal elevator a reality for our demanding clientele, seeking and implementing creative and functional solutions, as well as elegant, so that they become works of art in themselves.

*" Some people think that luxury is
the opposite of poverty.
It is not. It is the opposite of
vulgarity ".*

Coco Chanel

a lifestyle

Luxe Elevators® elevators integrate perfectly into their environment, whether it is a home, an office or a residential building. We make sure they reflect the lifestyle of our customers so that they become more than just a means of transportation.

Furthermore, all our elevators are idealized to be incorporated with total harmony into the daily life of our clients, always offering the best combination between aesthetics and mobility.

From floor to ceiling and from side to side, Luxe Elevators® elevators are a sensory experience where lines, materials and technology come together to become a decorative and exclusive element wherever they are positioned.

**from another
point of view**

No matter where you look at them, Luxe Elevators® elevators are unique pieces where every detail is a work of art because, as Givenchy said, it is in the details where true luxury is glimpsed.

“Luxury lies in every detail.”

Hubert de Givenchy

As the popular saying goes; Unity is strength and in our elevators, the union of each of the pieces that compose it is a perfectly connected meeting point so that it is not only safe, but also elegant and durable.

Light is another aspect to which we give great importance and in Luxe Elevators® elevators that light is obtained in various ways; with transparent or translucent materials, for example such as alabaster, so that it accompanies us during the journey, thus avoiding the claustrophobic feeling present in other elevators.
